

Contents

1. Casing Special Problems	5
1.1. Casing Loads.....	5
1.2. Specific Considerations on Casing Design.....	8
1.3. Technical Aspects of Casing Design.....	11
2. Technology of Cementing Casing Pipes	13
2.1. Requirements for Sealing Slurries Used in Drilling Industry.....	14
2.2. Binders Used for the Production of Sealing Slurries.....	16
2.2.1. Common Use Cements.....	16
2.3. Additives and Admixtures Modifying Technological Properties of Sealing Slurries.....	23
2.4. Measurement of Technological Parameters of Fresh and Hardened Slurries.....	25
2.5. Methods of Cementing Casing Pipes.....	30
2.6. Calculation Algorithm of One-stage Casing Pipes Cementing.....	36
3. Drilling Fluids	44
3.1. Mud Circulating Systems and Solids Removal.....	44
3.1.1. Mud Circulating System in Drilling.....	44
3.1.2. Mud Circulating System in Oil and Gas Wells.....	45
3.2. Drilling Fluid Functions.....	46
3.3. Drilling Fluids Classifications.....	49
3.4. Drilling Fluids Properties and Tests.....	52
3.4.1. Properties of Drilling Fluids.....	52
3.4.2. Diagnostic Tests.....	53
3.5. Drilling Fluids Selection Criteria.....	53
3.6. Drilling Fluids Components.....	54
3.6.1. Drilling Fluid Bentonites.....	54
3.6.2. Attapulgius Clays (Attapulgiite, Polygorskite).....	56
3.6.3. Polymers: Chemistry and Application in Drilling Fluids.....	57
3.6.4. Natural Polymers and Derivatives of Natural Polymers.....	62
3.6.5. Polymers with Molecular Weight 500–10 000 g/mol – Oligomers.....	64

3.6.6. Synthetic Water-Dispersable Polymers.....	65
3.6.7. Surfactants	67
3.6.8. Common Inorganic Chemicals Used in Drilling Fluids	71
3.6.9. Materials to Increase Density	73
3.7. Water-Based Drilling Fluids.....	76
3.7.1. Non-Inhibitive Fluids.....	76
3.7.2. Inhibitive Fluids.....	77
3.7.3. Polymer Fluids.....	78
3.7.4. High-Temperature Polymer Muds	79
3.7.5. Drilling Fluids for Drilling in Shale Formations	81
4. Selected aspects of well logging measurements	92
4.1. Introduction.....	92
4.2. Electrical Logging.....	94
4.2.1. General.....	94
4.2.2. Classic Electrical Logging.....	98
4.2.3. Classic Microresistivity (<i>MR</i>).....	101
4.2.4. Induction Logging (<i>IL</i>)	102
4.2.5. Laterolog (<i>LL</i>).....	104
4.2.6. Microlaterolog (<i>MLL</i>).....	108
4.3. Nuclear Logging	109
4.3.1. Gamma Ray	109
4.3.2. Density Logging (<i>DL</i>).....	112
4.3.3. Neutron Logging.....	113
4.4. Sonic Logging (<i>SL</i>)	117
